Joint Concept Steering Group

24-25 August 2005

Joint Operations Concepts

Colonel Ed Yarnell

Joint Staff J7

24 & 25 Aug 2005

Outline

- **Review Previous JCSG actions**
- **Provide Status on Joint Operations Concepts (JOpsC) Family**
- **Discuss Improvement Efforts**
- **Discuss Way Ahead**

May 05 JCSG AAR

- **C2 JIC as a prototype for the new standardized CBA process when defined.** **C2 JIC completing final approval process. CBA TOR and joint experimentation application to JICs require further standardization**

- **JS J7 and JFCOM J9 will provide a better definition of Joint Experimentation as it relates to future concept development.** **C-Plan/3010**

- **3 yr review cycle for concepts in CJCSI 3010.02B to support future Strategic Guidance.** **3010**

- **JS J7 and J8 will resolve the requirements for Concepts entry into JCIDS and use of DPS scenarios in JICs.** **3010**

- **JCSG Stakeholders will review CJCSI 3010.02B Appendix C forwarded sepcor and provide feedback to the writing team.** **Completed and incorporated in 3010 draft.**

May 05 JCSG AAR

- **The Joint Concept community will write non-directed Joint CONOPS and submit them for a Decision Point. The Decision Point, if they are deemed to have merit for further analysis and potentially CBA, there will be direction for the writer to go back and add the additional analysis, context, and fidelity required.** **Agenda item for current JCSG**

- **JS J7 and J8 will synchronize CJCSIs 3170 and 3010.** **3010 and current FCB process improvement effort.**

- **JS J7 will provide a format to capture the costs and resources required for concept development in CJCSI 3010.02B.** **Did not incorporate format but will be captured in lessons learned from authors. See 3010 responsibilities.**

- **JS J7 will host / sponsor future quarterly JCSG meetings.** **Next meeting is 15 & 16 Nov**

- **JS J7 will provide website link information in CJCSI 3010 to Executive Summaries of all of the family of Joint Concepts.** **Posted**

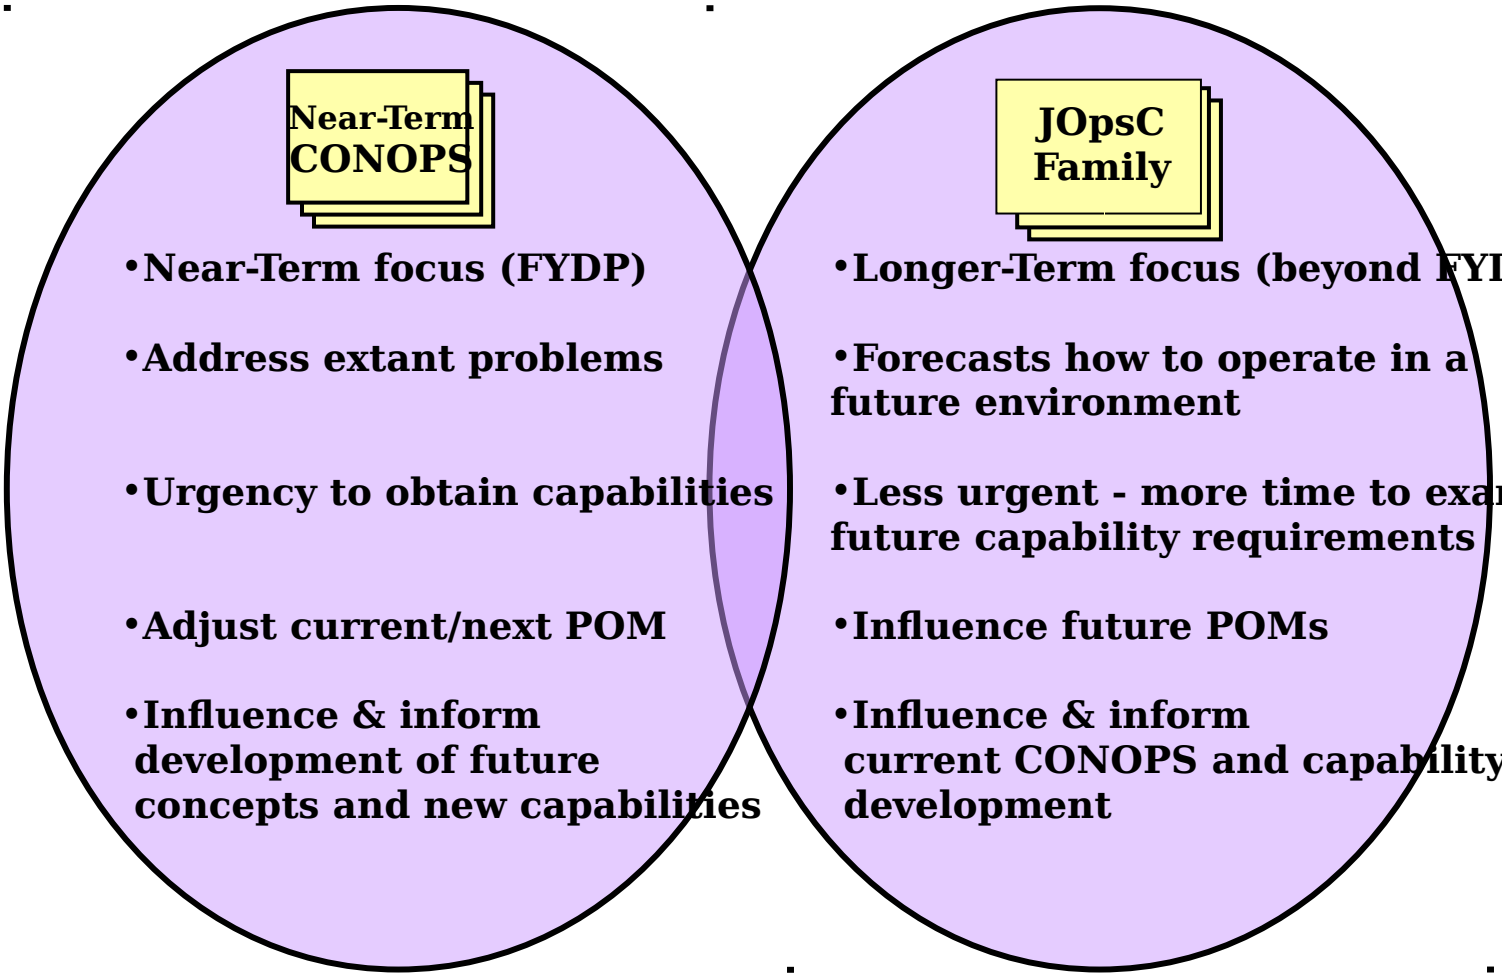
Concepts to Capabilities

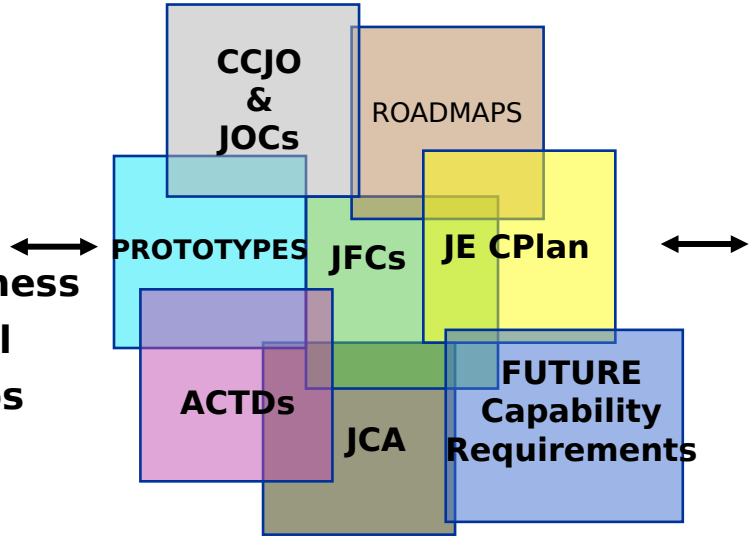


Near-Term CONOPS
•Near-Term focus (FYDP)
•Address extant problems
•Urgency to obtain capabilities
•Adjust current/next POM
•Influence & inform development of future concepts and new capabilities
JOpsC Family
•Longer-Term focus (beyond FYDP)
•Forecasts how to operate in a future environment
•Less urgent - more time to examine future capability requirements
•Influence future POMs
•Influence & inform current CONOPS and capability development

FCB links to Concept Development Experimentation (CDE)

FCBs

Force Application
Focused Logistics
Protection
Battlespace Awareness
Command & Control
Network Centric Ops
Training
Force Management



Venues/Activities

Joint Command - Future
Co-Sponsored Events
Limited Objective Experiments
Senior Leader Seminars
COCOM Exercises

Experimentation is needed to:

- Develop prototype solutions for current needs
- Develop solutions for future needs
- Help assess Concepts

During Experimentation, FCBs:

- Participate in defining proposed solutions
- Participate in process and outcomes

Experimentation output:

- Actionable Recommendations
- DOTMLPF Change Requests
- Prototypes
- Recommendations for Concept revisions

HOW?
Joint Concept Steering Group (JCSG) & Joint CDE Executive Council

Joint Concept Community Collaboration

Joint Concept Community Members

Meet as Needed

JROC/JCS

JCSG DISCUSSION ITEM

Persistent ISR JIC

MILITARY PROBLEM

US ISR force structure must be able to provide an affordable, flexible and focusable ISR capability that is able to support the full range of military operations. The ability to gather, fuse, and understand multi-INT, multi-domain information to derive long term knowledge of adversary capability, status and intent; to provide persistent, deep look, multi-aspect surveillance enabling prosecution of time critical targets across all mediums; and to track and identify surface moving targets is critical to warfighter success.

SCOPE

TBD

SCOPING ISSUE WILL BE DISCUSSED DURING AUG 05 JCSG

SAMPLE

PROPOSED TIMELINE

JIC OPR: STRATCOM

CBA OPR: BA FCB

CONOPs: STRATCOM Complete Sep 05

JIC: Begin Oct 05 Complete Feb 06

JCS IPR: Oct / Nov 05

Wargame: Conducted during CBA

CBA: FAA Feb – Apr 06
FNA May – Jul 06
FSA Aug – Oct 06

JUSTIFICATION

- **COCOMs Future IPL Priority**
- **USD (I) Integrated ISR Roadmap**
- **OSD (PA&E) ISR Crosscutting Study**
- **JOpsC Capabilities**
  - **IAMD, GS, JC2, NCOE JICs**
- **JROCM 068-05 (Apr 05) directs ISR CBA**
- **IED Defeat CONOPS & UAV Tiger Team**
- **OA-05 Study (Time Sensitive**

Topic

- Review Previous JCSG actions
- Provide Status on Joint Operations Concepts (JOpsC) Family
- Discuss Improvement Efforts
- **Discuss Way Ahead**

Way Ahead

- **Revise JOCs & Complete Current Concepts**
  - **CCJO approved by CJCS: Aug 05**
  - **JOC revisions: Jun 05–Jun 06**
  - **Complete four JICs (Joint Logistics, C2, NCOE, P-ISR): Sep–Dec 05**
  - **Complete Training JFC: Dec 05**
- **Development of Additional JOpsC family**
  - **CJCSI 3010: Sep 05**
  - **JCSG Charter**
  - **JOpsC nomination criteria & development approval process**
  - **Execute nomination process @ Nov JCSG**
